8 February 2010

To whom it may concern

The National Asthma Council Australia has recently accepted Electrodry as a partner in our Sensitive Choice program. Its range of cleaning services has exclusive approval:

1. Carpet Cleaning
2. Upholstery Cleaning
3. Leather Cleaning
4. Mattress Cleaning
5. Drape Cleaning
6. Blind Cleaning
7. Specialised Stain Removal
8. Cool Room Cleaning
9. Air Conditioner Cleaning
10. Fire Restoration and Water Restoration

That means that the Electrodry system has been shown to be carefully developed with the health of people with asthma and allergy in mind.

Which means that you can be confident that in engaging Electrodry to care for your carpets and upholstery, you are also making a good choice for your family's respiratory health.

All products and services accepted as Sensitive Choice partners – including Electrodry – have been reviewed by the Sensitive Choice Product Advisory Panel of experts in allergy, respiratory medicine, pharmacy, general practice, industrial chemistry and consumer issues.

Only products that are a better choice for people with asthma or allergy are included on the Sensitive Choice register and entitled to carry the exclusive Sensitive Choice blue butterfly logo.

As well as cleaning your carpets and upholstery, Electrodry has added HealthGuard™ to its cleaning products to kill germs, bacteria and odours and help control dust mites, which are one of the most common triggers for asthma and allergy in Australia.

For more information to help you manage asthma and allergy in your home visit: www.SensitiveChoice.com.au and look out for the Sensitive Choice blue butterfly.

Congratulations on choosing Electrodry – a Sensitive Choice for your home and health.

Yours sincerely

KRISTINE WHORLOW
Chief Executive Officer
